

# Student Perception Survey Overview

Discover a World of Opportunity™

# What is LEAP?

## L.E.A.P. stands for Leading Effective Academic Practice

- LEAP is the Teacher Growth and Performance System used in Denver Public Schools
- Through LEAP, teachers get feedback on their instruction and their students' learning.
- **Student Perception Surveys** are the part of LEAP that provides teachers with feedback directly from their students.

# WHY are Student Perceptions important?

“Students are the first to know what IS and ISN’T working in the classroom.”

- Arne Duncan, U.S. Secretary of Education

Your feedback will help your teachers know what they are doing well and what they can improve on.

# What is the Student Perception Survey?

- ❖ A 30-question survey designed for students to provide feedback to their teachers in three areas:
  - **Facilitates Learning**
  - **Supports Students**
  - **High Expectations of students**
- ❖ Students respond to each question using the following scale:

Never	Some of the time	Most of the time	Always
-------	------------------	------------------	--------
- ❖ All surveys are confidential. Your teacher will not see your individual responses. They will only get a report of all of their results.

# Facilitates Learning

*The teacher supports students' understanding of academic content and encourages students to think critically and explain their ideas.*

# Supports Students

*The teacher supports students emotionally and creates an engaging classroom learning environment.*

# High Expectations of Students

*The teacher communicates high expectations for students' behavior and academic effort.*

# When you take the survey...

- Take your time and read every question carefully
- Be honest
- Give feedback, NOT criticism
- If you are unsure about a question, ask for help

# Thank you

Your feedback is important to us!
